
Chain

Posted by John Harvey - 2008/01/04 09:34

I've got a bucket of galvanised chain possibly 3/8 or thereabouts sitting here doing very little. It may be about 100 feet and it was anchor chain for a 37 foot boat. If anyone is interested in making me an offer I'll drag it all out and measure it accurately. The great advantage of it is that it's right by the Club!!
